

VISITOR

MANAGEMENT SOFTWARE

SECURITY STARTS AT YOUR FRONT DOOR

Know who is on-site, who was on-site, and who is being visited with Keyscan's Visitor Management Software.

VISITOR MANAGEMENT SYSTEMS ALLOW ORGANIZATIONS TO TRACK AND MANAGE VISITORS ELECTRONICALLY. WITH A VISITOR MANAGEMENT SYSTEM, YOU CAN REPLACE YOUR PAPER LOGBOOKS AND PROVIDE PROFESSIONAL BADGES TO VISITORS.

When visitors arrive in the lobby, they can "sign in" with the receptionist.

No more phone interruption, notifying you that your visitor has arrived. Be notified by email that your visitor is here to see you.

- All visits are stored in the systems database, saving data entry time for repeat visitors. Simply search for the visitor and schedule the visit.
- The Visitor Management System time stamps details of entry and exit times for each visit, enabling the facility administrator to track visitors.
- Keyscan's Visitor Management System not only can be configured as a standalone product, but also provides for future or backward integration with Keyscan Access Control Systems. Now you have a fully integrated Visitor Management and Security Access Control System at your fingertips.
- Already using Keyscan Access Control systems? No problem, simply purchase the Keyscan Visitor Management module license. It easily and smoothly integrates with Keyscan System V access control software.

BADGES ARE PRINTED AND A PERMANENT ELECTRONIC RECORD IS AVAILABLE FOR HISTORY REPORTS OF TRAFFIC AND VISITOR TIME IN AND OUT.

Electronic Visitor Management Systems are becoming more widely used to track visitors in commercial facilities, corporate headquarters, government offices, warehouse and manufacturing facilities, research and development labs, hospitals and schools.

TRADITIONAL PAPER VISITOR LOG BOOKS LACK PRIVACY...ILLEGIBLE WRITING...CAN NOT OFFER REPORTING...AND EVEN ELIMINATE THE POSSIBLE ABUSE OF VISITOR BADGES.

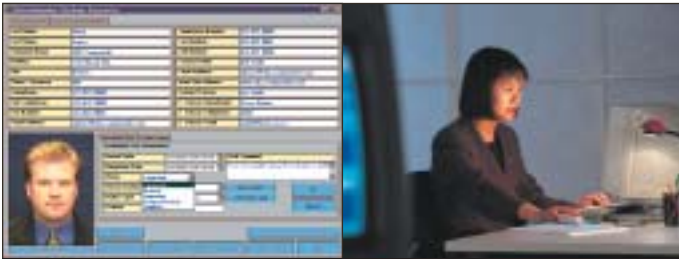

FIND OUT VERY QUICKLY, SIMPLY RUN A REPORT ON WHO IS VISITING WHOM, WHY, WHEN AND HOW OFTEN.

VISITOR ARRIVING

If the visitor has been pre-authorized by their host, their details will already be available at the receptionist lobby.

Keyscan's Visitor Management software allows the ability to quickly create individual visitor badges at a very low cost. All you need is a standard InkJet, or laser printer, badge labels, and you can create professional color visitor badges or parking passes in no time.

MARK VISITOR ARRIVED

WITH KEYSKAN'S VISITOR MANAGEMENT SYSTEM YOU RECEIVE A FIRST LINE OF SECURITY AT YOUR RECEPTIONIST DESK.

- Scheduled visitors receive an inviting reception.
- Provide professional visitor badges for enhanced security.
- Identify unwanted visitors.
- Eliminate lost or unreturned badges.
- Protect previous visitor's identity and confidential information.
- Authenticate visitor ID badges.
- Integrates with Keyscan System V for greater perimeter and internal access control.

VISITOR PARKING OUT OF CONTROL?

Quickly identify unauthorized vehicles parked, with a proper parking pass.

MINIMUM PC REQUIREMENTS:

P4 1.8 GHz 20GB HD, 256Mb of RAM CD Drive, Network card, Com port 1 and or 2, USB port, 1 printer port, Tape or CD writer for backups, Sound Card, Video Card, Windows 2000 or XP PRO.

PART NUMBERS:

System VMSA (Visitor Management Standalone Software) Visitor Management Software permits one user; additional users can be added. May be integrated with Keyscan System V Access Control System.

System VMM (Visitor Management Module) This software is configured for adding Visitor Management to existing Keyscan System V Access Control System.

BIZSCAN Business Card Scanner; automates enrolment of visitors in Visitor Management Software and stores a JPEG image of the card.

Each Visitor Management software includes one registration number that allows for one client license and sample Avery 2940 ID badge labels to get you started. To activate additional Visitor Client licenses you need to purchase the System VCL.

Print Visitor Badges on any Laser or Inkjet printer using Avery 2940 ID badge labels. (not included)

To purchase additional labels contact your local Office Supply Store or visit www.avery.com

Keyscan's Visitor Management Software can also print ID labels from a Dymo label printer. (Not Sold or supported by Keyscan)
